5. Earth is the third planet from the sun.
6. Mars is known as the red planet.
7. Jupiter is the largest planet in the solar system.
8. Saturn has rings of ice and rock.
9. Uranus and Neptune are gassy planets.
10. Pluto is now known as a dwarf planet.

The sun is at the center of our solar system.

The sun is at the center of our solar system.

The sun is at the center of our solar system.

The sun is at the center of our solar system.

There are nine planets in our solar system.

There are nine planets in our solar system.

There are nine planets in our solar system.

There are nine planets in our solar system.

Mercury doesn't have an atmosphere.

Mercury doesn't have an atmosphere.

Mercury doesn't have an atmosphere.

Mercury doesn't have an atmosphere.

Venus is the closest planet to Earth.

Venus is the closest planet to Earth.

Venus is the closest planet to Earth.

Venus is the closest planet to Earth.

Earth is the third planet from the sun.

Earth is the third planet from the sun.

Earth is the third planet from the sun.

Earth is the third planet from the sun.

Mars is known as the red planet.

Mars is known as the red planet.

Mars is known as the red planet.

Mars is known as the red planet.

Jupiter is the largest planet in the solar system.

Jupiter is the largest planet in the solar system.

Jupiter is the largest planet in the solar system.

Jupiter is the largest planet in the solar system.

Saturn has rings of ice and rock.

Saturn has rings of ice and rock.

Saturn has rings of ice and rock.

Saturn has rings of ice and rock.

Uranus and Neptune are gassy planets.

Uranus and Neptune are gassy planets.

Uranus and Neptune are gassy planets.

Uranus and Neptune are gassy planets.

Pluto is now known as a dwarf planet.

Pluto is now known as a dwarf planet.

Pluto is now known as a dwarf planet.

Pluto is now known as a dwarf planet.
